Institute for Community Engaged Research (ICER)

The Institute for Community Engaged Research (ICER) supports socially engaged research with communities internationally, nationally, and in the Okanagan Valley. Sharing a commitment to research that supports diversity, equity, and social justice, the Institute facilitates the participation of community members, organizations, students, and academics as co-researchers.

Materials and Manufacturing Research Institute (MMRI)

This Research Institute is pending approval by the Board of Governors

The MMRI is a multi-disciplinary, multi-campus research hub that fosters collaboration between local, national and international R&D sectors. Its members come from diverse fields, including engineering, physics, chemistry, biology, mathematics, computer science, health and medical sciences. Research clusters supported by the MMRI engage in innovative core and applied research in emerging areas of materials and manufacturing at macro, micro and nano-scales. 250.807.9652

Regional Socio-Economic Development Institute of Canada (RSEDIC)

The Regional Socio-Economic Development Institute of Canada (RSEDIC) supports the BC Interior and comparable regions around the world in building on their dynamism and success through collaboration across post-secondary institutions, community organizations, enterprises, accelerators, development agencies, First Nations and Governments.
